Subject: RE: Canadian Radium & Uranium-Post Radon Mitigation System Sampling

Ben,
Just wanted to confirm with you that you received this message and set this up.
Thanks,
Dan

Subject: Canadian Radium & Uranium-Post Radon Mitigation System Sampling
Importance: High

Good Afternoon:

We would like to set up the TDD revision for radon specialist and one Weston Technician to return to CRU in order to drop off and pick up radon canister samples. We will be only performing sampling in the NY Stone Building at 105 Kisco Avenue (Not the two warehouses at 105 or anything at 103 Kisco Avenue). We would like to drop the same amount of canisters at the same locations as the prior sampling. However, we would like to add 1 or 2 more canisters in order to sample the upstairs office that we didn't sample due to it being locked. We found out after the fact that the office was occupied.

The tentative drop date is October 9th with a pick up date of October 13th.

Please let us know. Thanks

Regards,

Eric
